GIFT CRYSTAL BEAUTY WITH A TOUCH OF UNIQUENESS

Are you looking for a fitting gift for your loved ones, trading partners, colleagues or employees to celebrate a singular occasion? Give much more than that: Moser's crystal drinking collections and decorative objects are a gateway into a magical world of fine cuts, shimmering reflections and vibrant colours.

Introducing gift sets that will allow you to always find the right gift for any occasion. A gift that will not only bring joy to its recipient but bestow a touch of uniqueness and timeless beauty on their home. You can choose from prestige, richly decorated classic drinking collections or, at the opposite end of the spectrum, from modern, contemporary collections reflecting the latest trends in glass and interior design. Your loved ones are also sure to appreciate any of the minute vases reminiscent of perfectly cut little jewels, various decorative curios or scintillant Christmas adornments.

The assortment includes iconic Moser masterpieces as well as collections that are no longer in production – giving you a rare opportunity to acquire them. You can choose between glasses and decorative items made of clear crystal or in characteristic Moser colours. We will gladly customise the gift with a monogram or a coat of arms.

PRESENT YOUR GIFT IN STYLE

It is not just the contents but also the packaging that matters in gift-giving. Our crystal glasses and decorative items are packaged in various types of elegant boxes that will also help protect your gift from damage.

On request, we will also furnish the gift with wrapping paper and Moser decorative ribbon.

THE CENTRE OF ATTENTION ON ANY TABLE

Serving drinks from a crystal carafe – into glasses from the same set of course – will lend your favourite beverage the hallmark of complete uniqueness.

PURE MASTERPIECES AND SHINING JEWELS

Clear crystal is created by melting silica sand, soda, limestone and potash at temperatures of around 1400 °C. But the greatest alchemy happens during the creation of coloured molten glass. Moser works with a unique colour palette using closely guarded formulas which make our spectrum of colours nearly inimitable. It was Leo Moser himself who contributed to their development back in the 1930s, after several years of research in Berlin laboratories. Carefully dosed admixtures of various metal oxides lend the crystal hues reminiscent of gemstones.
